### BRYAN CLOSES HIS CAMPAIGN

Spends Busy Day in State of Kansas Speaks to Three Crowds at Youngsand Talks of His Ambitions.

Marysville, Kan., Nov. 3 .- William Jennings Bryan concluded his campaign of the state of Kansas and of the United States before enthusiastic audience at this place. It was the last political speech, his add ess at Lincoln being nonpartisan, and simply a talk from a neighbor to, his

cluding political speech of the campaign, and his last words were given peroration was delivered with all the earnestness at his command, and as he declared that he had given an im pulse to honest politics and helped to he was wildly applauded by the large audience. In concluding he spoke in part as follows:

"Ladies and Gentlemen-I am now 48 years old. It is 13 years since 1 began my political career as a candidate for congress. I told the people not try to get their hands into other try to keep other people's hands out of their pockets. For 18 years this thought has run through every speech and act. I have tried to apply to government the Jefferson'an maxim of 'equal rights to all and special privileges to none.' I have tried to help make this government a government of the people, by the people and for the people.

"What a spectacle the Republican campaign presents at its close, the Republican candidate trying to repudiate the support of the trust magnates, who are coming out from undercoverand announcing their loyalt to him, and at the same time trying to claim the support of labor leaders like Mitchell and Duncan and Morris, who are openly repudiating them. Surely the hour has come for a roturn of the government to the hands of the people. Let the people rule," It was a notable day for Mr. Bryan in Kansas. Commencing at Kansas City, Kan., he talked in towns and cities not unfamiliar to him, for he

times before; but his audiences were greater than ever before during his campaigns, not excepting 1896, when he carried the state by a large plurality. In every speech he delivered he referred to the effort of the president and of Mr. Taft to deny the support of Mr. Rockefeller and the trust magnates, and quoted from a fac simile confidential letter issued by the Standard Oil company and ordering the employes of its New York office to march in the parade held in that city last Saturday night, and published in a New York paper.

### **ROUSING RECEPTION**

le Given Candidate Bryan on Return to Lincoln.

Lincoln, Neb., Nov. 3.-The greatest demonstration in the Listory of Lincoln was given to Mr. Bryan by his fellow townsmen on his return to his home city at the close or his campaign. Nonpartisan in character, it was participated in by Democrats and Republicans alike, and the Democratic candidate was driven through streets and cheered by almost the entire population of the city. The reception was tendered him as a citizen of Lincoln rather than as a candidate, and in the speech he avoided all reference to partisan issues. In the parade which followed his automobile from the Union station, however, many political transparencies

were carried. Mr. Bryan's speech was greeted with vociferous cheers. The candidate was moved to tears as he made an effectionate reference to his wife, and when he closed the demonstration accorded him was such as he rarely experienced in this three campaigns. "I believe I am going to be elected," he said. "More than that, I believe it is going to be more than a bare victory. I believe that there is a stirring of the conscience of the American people, a moral awakening, an uprising that means a sweeping victory, and I will swear in your presence that no one who votes for me will ever have occasion to shamed of the vote he casts."

The Hague, Nov. 3.-No blockade of the ports of Venezuela by the Netherlands government has yet been ordered, nor will any definite action be taken until the government receives the official text of President Castro's reply to the second Dutch note. ### TAFT DELIVERS FINAL MESSAGE

Town and Reviews Lengthy Parade.

Youngstown, O., Nov. 3 .- "Vote tne Republican ticket and preserve prosperity, protection to American industries, business integrity and the rights of labor." This was the message with which Mr. Taft finished his fight for the presidency.

Three speeches were required of the candidate-at the Park theater, Mr. Bryan realized it was the con- the Grand opera house and in the public square. Preceding these the candidate reviewed a parade wnich with more than ordinary feeling His was miles in length and was composed of thousands of uniformed marchers.

The last day of the campaign for the candidate was remarkable in that create a sentiment in favor of reform, there was an increase rather than a diminishing of the crowds and enthusiasm wherever he went. Beginning his work at Dunkirk, N. Y., he addressed big crowds at Westfield, N. Y., Erie, Pa., Ashtabula, Garretts ville, Cleveland and Youngstown. The Cleveland meeting was a monster sfof my district that, if elected, I would fair and was preceded by a parade of many marching clubs, which was people's pockets; that I would simply reviewed by the candidate by passing through the lines in an automcline with Mrs. Taft, who joined him as Buffalo.

The meeting in the Cleveland armory was presided over by A. L. Faulkner, president of the national order of windowglass workers. Judgo Taft's speech here was a repetition of his arguments to show why there should be no change in the policies of government a applied by the present administration, in addition to which he took advantage of the opportunity to emphasize, as he nad done throughout the day, that notwithstanding the opposition to him and the Republican party, Samuel Gompers, if elected, he will maintain his great sympathy for and interest in the welfare of organized and unorganized labor, which he maintains his previous record sustains.

In this connection it was made known that Representative Burton had information from Daniel Keets, president of longshoremen's union, that the telegram published from John Mitchell to Samuel Gompers in which Mr. Mitchell declares himsoif in sympathy and accord with the pelicy of the American Federation of Labor, is garbled, inasmuch as it leaves out two important words, these words being "nonpartisan political." The text of the telegram as it should have been published was read, as follows:

"Telegram quoting what purports to be an extract from speech delivered by Mr. Taft at Buffalo last night received. His statement, so far as it relates to me, conveys a wrong 'mpression. I am in full sympathy and accord with the nonpartisan political policy of the American Federation of Labor as it has been outlined and promulgated by the executive coun-

Both Claim Kentucky.

Louisville, Ky., Nov. 3.—The night before election found the Democratic and Republican leaders in Kentucky still confidently claiming the state for their respective candidates by comfortable figures, while impartial observers saw no reason to change their predictions of a close vote, with the chances favoring a modest plurality for Bryan. Chief interest attaches to the congressional races in the Fifth and Seventh districts, both at present held by the Democrats. The Republicans, spurred on by reports of Democratic disaffection in these bailiwicks, have displayed great energy and probably will make gains, but only in the Fifth are they thought to have a chance of winning. On the other hand, three of the four districts now represented by Republicans are normally doubtful, and the Democrats may retake one of these. Indications point to a full vote, although the campaign has not been specially strenuous.

Drys Will Not Contest. Elyria, O., Nov. 3.—The county op

tion league has issued the first offcial statement regarding the rumors of illegal voting at the wet and dry election. The statement says that while apparenly there were some illegal votes cast, there is not now sum ent proof to warrant court proceedings. In giving out the statement Secretary Gillie said that all of the other stories concerning irregularities in the election did not emanate from the league and were unauthorized by that organizatios.

Section Men Get a Raise. Sedalia, Mo., Nov. 3.-Effective today, all section men employed on the Missouri Pacific-Iron Mountain railroad system will receive an increase of wages from \$1.25 to \$1.35 a day.

Why a Town In the West Is Growing Rapidly.

#### ITS MERCHANTS PATRONIZED.

Money That Was Formerly Sent to the Mail Order Houses Now Spent at Home and Kept In Circulation There. Business Increased Greatly.

There is a hustling and progressive little town in the middle west that is quickly growing into a city, but the story of the beginning of its boom is known to few people. It started one day when a resident of the town was discussing local matters with the station master while waiting for his train.

"I understand," he remarked, "that Jones, the dry goods merchant, is not doing business enough to pay for the oats his horses eat and that Brown, the hardware dealer, is also on the verge of failure."

"Yes, it's a fact," replied the station master. "Too bad, isn't it?"

"Well, in a way it is, of course, but It must be their own fault. Antiquated business methods are probably the cause of it."

"That's where you make a big mistake," promptly returned the station master. "I happen to know Brown and Jones very well, and I tell you they are a couple of mighty up to date business men. Would you care to know the real facts in the case?"

"Well, I'm not particularly interested. in these fellows and their affairs," was the reply, "but"-

"That's just it," broke in the station master. "Most of the residents here live along year after year without a thought to our tradesmen, and when one of them fails you lay it to antiquated business methods. As a matter of fact, it is because you fellows fail to give them the support they have a right to expect."

"Why, how do you mean?" "I mean that instead of sending to the mail order houses or picking up in the city anything you need in the hardware, ciothing or dry goods line It is your duty to give the home merchants a chance for that trade. Of course you are not expected to pay a dollar for anything you can get out of town for 50 or 75 cents, but you'll find in the long run that you can do as well if not better right here at home, and just think what it means to the local merchant! Why, thousands of dollars are sent away every year when they could have been spent right here to better advantage."

"I don't know about that," replied the other.

"Well, I'll give you a little proof of It," went on the station master. "I happened to be talking to Brown, the hardware merchant, the other day when your boy came along on a new bicycle, and we stopped him and looked the machine over."

"I got that wheel through a mail order house for \$18.50," said the resident proudly.

"Yes, that's what the boy told us, and after he had gone Brown took me Into his store and showed me identically the same wheel for \$15."

"You don't tell me! Well, why doesn't he advertise that he has such bargains?"

"Simply because you people here, who patronize the mail order houses almost exclusively, don't give him your trade, and consequently he hasn't the money to do it. He knows the value of advertising in the local papers and spends every dollar he can afford to in that direction, but a share of the local trade that is rightly his would give him an opportunity to spread out in that direction. Money spent at home, you know, is going to be put in circulation at home, but when you send a dollar away from here it is gone forever. There is a big howl in this town, too, for improvements, but if we're going to let the merchants run down hill this way the town isn't going to move ahead to any great extent."

"Well, there's a good deal of sound sense in what you say," said the resident after a little thought. "I'll bring this matter up at the club tonight and see what the others think of it."

A few months later the merchants in that town were doing more business than they had in years, and it wasn't long before improvements in other directions were coming thick and fast. A board of trade was eventually organized, the local papers received such support that they could take a hand in the boom, and a woman's improvement society was formed that has done much to improve and beautify the town, thus attracting desirable resi-A. Publicity In Improvement Work. A band of workers for public im-

provement will find no surer way of intrenching themselves with the public than interesting the local press and getting its support. Not only will this own opinion and wide experience are give an added strength to the work, but will force upon the indifferent the fact that something is being done that will redound to his benefit and, further, that he should be aiding the work by active support. Improvement societies have occasionally issued a small pamphlet at regular or irregular interwals in which progress is recorded, policles outlined and argument made for the support and perpetuation of the work. The expense of these modest publications is fully met by inserting advertisements from the leading business houses. With the local press or a separate publication behind the work there is stability established that will go far toward gaining the confidence of the public.

Here a belt of mud nine feet from the ground shows that an elephant has rubbed his itching back against the rough bark of a tree, and, see, coarse hairs are still sticking in the hardened clay. There a long, sharp scratch repeated at regular intervals marks the passing of a rhinoceros. Here, again, is the pad mark of a tiger barely an hour old, and the pitted tracks of deer of all sizes and varieties surround the deeply punched holes which are the footsteps of an elephant. - Cornhill Magazine.

Settled the Sign.

When William M. Evarts was secretary of state a new elevator man had been employed in the department who did not know Mr. Evarts by sight. In his car was a conspicuous sign to the effect that by order of the secretary of state smoking was prohibited. One day Mr. Evarts boarded the car in company with a famous senator, the latter smoking a cigar. The new man promptly touched the smoker on the elbow and said, pointing at the notice, "Can't you read that sign?" Mr. Evarts promptly tore down the offending notice and, turning to the elevator man, said: "What sign? I don't see any." The attendant, suspecting something, wisely held his peace, but he followed the pair out and asked the guard at the door who the chap with the large head was. The guard told him.

Her Exercise.

Many readers think insufficient exercise is responsible for worrying moods. "Dare I whisper it." writes one correspondent. "Though I am a married woman, with two bonnie bairns, when my worries and temper prove too much for me I shut myself up in my room and dance a wild Scotch reel. I always did it when I got in a temper as a child as a sort of vent to my feelings, and I do it still and probably shall continue to do so as long as I'm sufficiently energetic."

Certainly a Scotch reel ought to provide enough exercise to exorcise any demon of worry if lack of exercise is the cause of it.-Home Chat.

# Jailors Who Redge

VOU are not hard to fit. You have been told that you are, but the real trouble lay in the fact that your tailor did not know how to fit you. He was hedging, so that if your clothes did fit you, he could properly impress you with his skill; and if they did not, he could have a soft place to fall on.

We do not deny that there are scores of capable and trustwortey tailors in America who turn out satisfactory clothes. But the chances are that you have not found one of them. you have we congratulate you and pass on. If you have not we say this to you:

Everybody in the vicinity had heard about his experiments. Everybody pretended interest, but few were sincere, and of the sincere few were unselfishly interested-his sister. Eileen. Drina and Lansing and maybe one or two others.

However, the younger set, now predominant from Wyossett to Wonder head, made up parties to visit Selwyn's cottage, which had become known as the Chrysalls, and Selwyn good naturedly exploded a pinch or two of the stuff for their amusement and never betrayed the slightest annoyance or boredom. In fact, he behaved so amiably during gratuitous interruptions that he won the hearts of the younger set, who presently came to the unanimous conclusion that there was romance in the air. And they sniffed it with delicate noses uptilted and liked the aroma.

On the sunlit sands dozens of young people were hurling tennis balls at each other. Above the beach, under the long pavilions, sat mothers and chaperons. Motors, beach carts and victorias were still arriving to discharge gayly dressed fashionables, for the hour was early, and up and down the inclined wooden walk leading from the bathing payillon to the sands a constant procession of bathers passed with nod and gesture of laughing salutation, some already retiring to the showers after a brief ocean plunge, the majority running down to the shore, eager for the first frosty and aromatic embrace of the surf rolling in under a cloudless sky of blue.

As Eileen Erroll emerged from the surf and came wading shoreward through the seething shallows she caught sight of Selwyn sauntering across the sands toward the water and halted, knee deep, smilingly expectant, certain that he had seen her.

Gladys Orchil, passing her, saw Selwyn at the same moment, and her clear ringing salute and slender arm aloft arrested his attention, and the next moment they were off together, swimming toward the sponson canoe which Gerald had just launched with the assistance of Sandon Craig and Scott

"So I was silly, after all," she said, biting at her under lip and trying to meet his humorous gray eyes with unconcern. But her face was burning now, and, aware of it, she turned her gaze resolutely on the sea. Also, to ner further annoyance, her heart awoke, beating unwarrantably, absurdly, until the dreadful idea seized her that he could hear it. Disconcerted, she stood up-a straight, youthful figure against the sea. The wind, blowing her disheveled hair across her cheeks and shoulders, fluttered her clinging skirts as she rested both hands on her hips and slowly walked toward the water's

"Really, that won't do," she said. Much moonlight and Gladys and the Minster twins convict you. Do you remember that I told you one day in early summer that Shella and Dorothy and Gladys would mark you for their own? Oh. my inconstant courtier, they are yonder! And I absolve you.

"Why do you-when you know-when I said-explained everything?" She looked at him fearfully. "You are somehow spoiling our friendship," she said. "And I don't exactly know how you are doing it, but something of the comfort of it is being taken away from me, and don't, don't, don't do it!"

She covered her eyes with her clinched hands for a moment, motionless; then her arms dropped, and she turned sharply, with a gesture which left him alone there, and walked rapidly across the beach to the pavilion.

Drina was wild to go and furious at not having been asked, but when Boots offered to stay home she resolutely refused to accept the sacrifice.

"No," she said; "they are pigs not to ask girls of my age, but you may go, Boots, and I'll promise not to be un-

happy.' Mrs. Gerard gave the rising signal. and Selwyn was swept away in the rushing herd of children out on the veranda, where for awhile he smoked and drew pictures for the younger Gerards. Later some of the children were packed off for a nap; Billy with his asscreed pupples went away with Drina and Boots, ever hopeful of a fox or rabbit; Nina Gerard curled herself up in a hammock, and Selwyn seated himself beside her, an uncut magazine on his knees. Eileen had disappeared.

### WOMEN ELIGIBLE AS WITNESSES

The women of Louisiana have been declared legally eligible as witnesses to wills and other legal pa pers. When the constitutional con vention of Louisiana in 1898 gave taxpaying women the right to vot on questions of taxation it provide that they might vote either in per son or by proxy. A woman wishin to give a friend a proxy to east he ballot must have the documen signed by two witnesses. It was then that it was discovered that woman in Louisiana could not wit ness a legal document. John Smith-plain John Smith-is not very high sounding; it does not suggest aristocracy; it is not the name of any hero in die away novels, and yet it is good, strong and honest. Transferred to other languages, it seems to climb the ladder of respectability. Mystery of a Cookbook.

Somebody mentioned cookbooks. "It takes a good deal to make me wonder," said the publisher, "but I received a jolt in the culinary line the other day that set me thinking. In looking over the manuscript of a cookbook that had been submitted for our approval I was struck by this introduction to many of the recipes, 'Good

Isn't anything that is good enough for a boarding house table good enough for any other table, and isn't anything F ind our office at once. that is good enough for any other table good enough for a boarding house table? Judging by the way those particular recipes read, they may result in some rather tasty dishes. Then why limit them to boarding houses?" -New York Globe.

"Good night, you precious lamb!" said the mother, with the liberty one sometimes takes, even with one's son, at bedtime.

### A ROYAL FUNERAL.

Burial of a Spanish King.

Strange and almost weird is the ceremonial which accompanies the burial of Spanish kings. The pantheon, or royal tomb, is at the palace of the Escurial, situated 3,000 feet above the the coffins of the kings lying on one side, those of the queens on the other. mous procession is formed, accompanying the body to the Escurial. A halt is made on the way, and the corpse

In the morning the lord high chamberlain stands at the side of the coffin and says in loud tones, "Is your majesty pleased to proceed on your journey?" ### QUEER TELEGRAPH POLES.

Made of Adobe In Bolivia-Growing Trees Used In Africa.

The most original telegraph line in ital of Bolivia, La Paz, to the town of Oruro. In this part of Bolivia there are no growing trees, and wood is so difficult to find that even the ordinary household furniture of the natives is invariably made not of wood, but of dried mud or adobe.

So when the war broke out between Chile and Bolivia and a telegraph line became urgent it was adobe that was chosen for the queerest telegraph poles in existence. These pillars were built on stone foundations and measured about five feet square at the base, with a height of about fifteen feet.

They were placed at intervals of about 361 feet and thus held the wire at a height sufficient to clear the only animals of the country, the llama and the donkey. The total length of the line was 156 miles.

Among other curious telegraph lines is the growing pole line erected in Uganda by an English engineer, who could not find any dead wood which would withstand the white ants and hit upon the idea of transporting growing bark cloth trees to the side of the roads and using them as poles.

In the Dutch East Indies growing Senator Beveridge, at a luncheon trees are turned to account also, but in Boston during the convention there a wire is stretched across the of the General Federation of Wom- road between the trees on either side. and the insulator is suspended in its middle, and the line is thus over the road and clear from vegetation.-Chicago Tribune.

### How He Managed It.

The bishop of Richmond told a good Hobo-I mean de limbs o' de law, story about his father. "He was a farmer," said Dr. Pulleine, "and a nice old gentleman too. One year he took it into his head to grow flax, so he sowed the seed and, having a good crop, sent it away to be made into a tablecloth. Some time later when seated at dinner he remarked to a lady near him, 'Do you know, I grew this tablecloth myit. I counted 10,000 sheep, put 'em | self!' 'Did you really?' she answered, with the greatest surprise. 'However did you manage it?' 'Well,' most mysteriously, 'if you'll promise not to tell any one I'll tell you. I-planted a napkin.' ### RIDICULE ALWAYS A POWER

Even Eloquence Bows Before the Light Shafts That Can Wound So Deeply.

President Hadley of Yale in his last annual report said that the idle rich were as great a curse to a college as to a community.

"Ridicule, could it but be employed, would turn the idle rich undergraduate to industry," said President Hadley at a dinner in New Haven, "but unfortunately this young man, with his panoply of motor cars, hunters and bulldogs, is not very vulnerable to ridicule. Riches, alas, are not so easily ridiculed as-say-low stature."

He smiled.

"A tiny, decadent poet," he resumed, "launched at a Philadelphia literary club into a passionate tirade against marriage. It was great nonsense, that tirade, but the little poet was eloquent, and his 'younger auditors were visibly impressed.

### A QUEER CHASER.

Dr. John Duncan Quackenbos, New York's authority on hypnotism, was discussing at his beautiful New Hampshire estate on Lake Sunapee the absurdity of dreams.

"You must have noticed," said Dr. Quackenbos, "the absurd, the causeless terror that a dream will sometimes give you.

"I know a man who, still but half awake, ran into his wife's room in the middle of the night, all shaken with fear, all wet with the cold sweat of an overpowering terror.

"'Oh,' he moaned, 'I have had such a dreadful dream. I've been chased round and round my room for hours and hours by a piece of blotting paper."

### SEA LIONS CAPTURE GULLS.

The sea lion displays no little skill and cunning in capturing gulls. When in pursuit the sea lion dives deeply under water and swims some distance from where it disappeared; then, rising cautiously, it exposes the tip of its nose along the surface, at the same time giving it a rotary motion. The unwary bird near by alights to catch the object, while the sea lion at the same moment settles beneath the waves and at one bound. with extended jaws, seizes its scream-

### "THE POWER OF LOVE"

A small audience greeted "Th Power of l'ove" at the Opera House fight, considering Papke easy game, the house and saw Devore, his wife newspaper correspondents have left Monday night. The plot was not a deep one, but the play itself was rather interesting. Miss Marian West, playing the part of the young unsophistocated vife of a millionaire, who wished o educate her in the ways of society, was the leading that point is given out from head- lady. The costumes worn by Miss West in the last act were splendid and beautiful. The manner in which she repulsed her husband, (using the words' which formerly he had used to her) when he sought to induce her to give up her cold, formal manner which she had acquired since his absense, won the applause of the audience. A little more animation on his part would not have been amiss.
